

RFID safety switch with tumbler, plastic, open-circuit principle, actuator monitoring, 24 V DC, with auxiliary release, IP69, locking force 1150 N, family-encoded, diagnostics output, M12 plug 8-pole, 3 LEDs for display of the operating states, 3 directions of actuation, latching force with turnstile adjustable: 25 N or 50 N, hygienic design, actuator 3SE6410-1AC01 to be ordered separately

product brand name	SIRIUS
product category	Non-contact safety switch
product designation	RFID safety switch with tumbler
design of the product	rectangular sensor unit
product type designation	3SE64
Product Function	
product function	
• positive opening	No
• control function for downstream devices	No
• cross-circuit/short-circuit recognition	Yes
suitability for use	
• safety-related circuits	Yes
General technical data	
product feature	family-coded, catch 25N/50N
product feature suitable for series connection	Yes
locking force	1 500 N
• according to EN ISO 14119	1 150 N
design of the RFID coding	universal coding
insulation voltage rated value	32 V
degree of pollution according to EN 60664-1	3
overvoltage category	Class III
surge voltage resistance rated value	0.8 kV
no-load current rated value	100 mA
protection class IP	IP66 in accordance with EN 60529 IP67 in accordance with EN 60529 IP69 in accordance with EN 60529
shock resistance	
• according to IEC 60068-2-27	30g / 11 ms
vibration resistance according to IEC 60068-2-6	10 ... 150 Hz, amplitude 0.35 mm
switching frequency	0.5 Hz
mechanical service life (operating cycles) typical	1 000 000
• note	when used as door stop: ≥ 50,000 switching cycles (door masses ≤ 5 kg and actuating speed ≤ 0.5 m/s)
relative ON period [%] of magnet coil	100 %
reference code according to IEC 81346-2	B
Substance Prohibition (Date)	07/01/2006
Weight	0.6 kg
Sensor	
height of the sensor	35 mm
length of the sensor	120 mm
width of the sensor	87.5 mm
Ambient conditions	

installation altitude at height above sea level maximum	2 000 m
ambient temperature	
• during operation	0 ... 60 °C
• during storage and transport	-10 ... +90 °C
operating resource protection class according to IEC 61140	III
relative humidity during operation maximum	93 %
• note	non-condensing, non-icing
Control circuit/ Control	
current consumption of magnet coil rated value	100 mA
locked-rotor current peak of magnet coil	250 mA
duration of locked-rotor current peak	200 ms
Main circuit	
operating voltage rated value	24 V
operational current rated value	250 mA
Enclosure	
design of the housing	special design
material of the enclosure	plastic, fiberglass reinforced thermoplast, self-extinguishing
Actuator	
• Product equipment auxiliary release of guard locking	Yes
• product feature latching	Yes
locking mechanism design	open-circuit principle
detent force adjustable 1	25 N
detent force adjustable 2	50 N
angular offset between guard locking and actuator maximum	2°
Display	
product function status display	Yes
display version as status display by LED	3 LEDs
Contact	
circuit principle	solenoid-locked (open-circuit principle)
operating distance	2 mm
assured operating distance OFF	20 mm
assured operating distance ON	1 mm
Installation/ mounting/ dimensions	
fastening method	screw fixing
design of the thread of the screw for securing the equipment	2x M6
tightening torque of fixing screw minimum	6 N·m
tightening torque of fixing screw maximum	7 N·m
Connections/ Terminals	
type of electrical connection	M12 plug, 8-pole, A-coded
wire length maximum	200 m
contact assignment	
• of socket 1 at PIN 1	A1 supply voltage Ub
• of socket 1 at PIN 2	X1 safety input 1
• of socket 1 at PIN 3	A2 GND
• of socket 1 at PIN 4	OSSD1 safety output 1
• of socket 1 at PIN 5	OUT diagnostic output
• of the bushing 1 at PIN 6	X2 safety input 2
• of the bushing 1 at PIN 7	OSSD2 safety output 2
• of the bushing 1 at PIN 8	IN magnet controller
Supply voltage	
type of voltage of the supply voltage	DC
supply voltage rated value	24 V
supply voltage	26.4 ... 20.4 V
fuse protection type for external auxiliary power supply required	2 A gG
Inputs/ Outputs	
input voltage at digital input	
• with signal <0> at DC	-3 ... +5 V

<ul style="list-style-type: none"> for signal <1> at DC 	15 ... 30	
input voltage at safety-related digital input		
<ul style="list-style-type: none"> for signal <0> at DC 	-3 ... +5 V	
<ul style="list-style-type: none"> for signal <1> at DC 	15 ... 30 V	
input current at digital input for signal <1> typical	10 mA	
input current at safety-related digital input for signal <1> typical	5 mA	
number of semiconductor outputs		
<ul style="list-style-type: none"> for signaling function 	1	
<ul style="list-style-type: none"> safety-related 	2	
design of the contactless switching element safety-related	short-circuit proof, sourcing output	
type of diagnostic output	short-circuit proof, sourcing output	
dark period at safety-related digital output maximum	0.5 ms	
dark period test duration		
<ul style="list-style-type: none"> at digital input maximum 	5 ms	
<ul style="list-style-type: none"> at safety-related digital input maximum 	1 ms	
dark period test interval
